Creative UX/UI Designer with 3.5 years of experience in designing responsive web and mobile interfaces. Skilled in crafting user-centered designs for products across industries such as E-commerce, Education, Manufacturing, and Travel. Proficient in using tools like Figma, Framer, Webflow, and emerging AI technologies to enhance design quality and workflow efficiency.

EXPERIENCE

UX Engineer Apr 2024 – Present
Optisol Business Solutions - Chennai

- Designed responsive web and mobile interfaces for "Just Be Lekker", a property management and travel platform with multi-user roles (Host, Guest, Admin)
- Worked on multiple POCs and internal web/mobile apps, contributing to user journey mapping and interface optimization.
- Leading UX efforts for Scanflow, an AI-based scanning solution used across Automotive, Manufacturing, and Pharma industries.

UX/UI Designer Sep 2022 – Apr 2024
Shrewd Business Solutions - Coimbatore

- Designed websites, mobile apps, and dashboards for various domains like E-commerce, Education, Food, and Marketing.
- Delivered end-to-end designs for live projects like Homepreneur Awards, SSVM Awards, Tiecon Chennai, Practills, and Poppy Marketer.
- Created prototypes, logos, and micro animations using Figma, Illustrator, and After Effects; collaborated using Miro and FigJam for design sprints.

RECENT PROJECTS

Scanflow

- Revamped entire website by integrating AI-generated images and videos using tools like Leonardo.ai, Google Veo 3, and Runway.ml to increase brand credibility.
- Built design systems and templates for blogs, insights, success stories, and promotional content to enhance digital engagement and marketing reach.

Just Be Lekker

- Designed mobile and web-responsive interfaces for Host, Guest, and Admin roles ensuring smooth property booking and management flow.
- Created dashboards, booking flows, and admin panels focusing on clean UX, usability testing, and responsive behavior.
